

Virtual Exchange on Innovation: Linking Latin American Water Utilities with Swiss Partners

Are you a Swiss company, NGO, or research institute working in or planning projects in Latin America? Interested in connecting with water utilities (drinking water and wastewater treatment) and understanding the challenges they face?

The Inter-American Development Bank (IDB) seeks to link water utilities with innovative Swiss solutions to address critical challenges such as:

- *Water loss management*
- *Analysis of consumption patterns and user profiles to optimize billing*
- *Infrastructure deficiencies and improving maintenance*
- *Enhance staff training*

Take the opportunity to present a 5-minute pitch showcasing your solution!

Virtual Exchange on Innovation: Linking Latin American Water Utilities with Swiss Partners

To foster initial connections, IDB Lab Source of Innovation and the Swiss Water Partnership (SWP) with support from Switzerland Global Enterprise (S-GE), Team Switzerland Infrastructure and the State Secretariat for Economic Affairs (SECO) are hosting a virtual exchange, bringing together Swiss stakeholders and water utilities from the Latin America & Caribbean region, including Colombia, Peru, Ecuador, Mexico, Brazil, and potentially other countries.

Date and time: 27 February 2025, 16:00 hrs. CET (check your time zone [here](#))

Participation Fees:

SWP, S-GE and TS-I Members: 50 CHF (reservation fee)

Non-members: 120 CHF (registration fee)

Please register by 31 January 2025: Registration

Participation is limited, with priority given to members.

Translation will be available in English, Spanish, and Portuguese.
